EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 3, 2004, has been entered.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Laura Grunzinger on February 18, 2004.

The application has been amended as follows:

The Specification:

In the first paragraph on page 1, after "February 16, 2000," insert – claims priority under 35 USC 119(e) to --.

The Claims:

In claim 1, line 9, after "acids" insert – selected from the group consisting of lysine, ornithine, arginine, and tryptophan --.

Art Unit: 1751

In claim 1, line 25, delete "one or more compounds selected from the group consisting of".

In claim 1, line 29, after "compounds;" insert – and --.

In claim 18, line 10, delete "one or more compounds selected from the group consisting of".

The Abstract:

As the last page of the specification, insert the following Abstract on a separate sheet of paper:

Abstract of the Disclosure

The fabric care compositions comprising A) from 0.1% to 10% by weight amino acid based polymers which are alkoxylated with an average of 0.1 to 30 alkyleneoxy units; B) from 1% to 80% by weight, of a fabric softening active; and C) the balance carriers and adjunct ingredients wherein said compositions provide colored fabric with protection against the deleterious effects of mechanical wear and exposure to laundry-added ingredients inter alia bleaching materials or water-borne materials inter alia heavy metal ions.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's amendments, Applicant's arguments, and the Examiner's Amendment are sufficient to place the instant claims in condition for allowance. Note that, the Declaration filed under 37 CFR 1.131 is moot since the claims, as amended, are sufficient to overcome the rejection(s) previously established.

Of the references of record, the most pertinent is WO 98/12296. '296 teaches a compositions comprising dye fixing agent and a specific amino-functional polymer, said composition providing an improved color care on fabrics upon laundry treatments.

However, '296 does not specifically teach or suggest the specific amino acid polymer material as recited by the instant claims.

None of the references of record, alone or in combination, teach or suggest a composition containing an amino acid polymeric material, a fabric softening agent, and the other requisite components of the composition in the specific proportions as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a composition as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
